

## LOVING HOMES DESPERATELY NEEDED:

*FOR ADORABLE KITTENS & VERY SWEET ADULT CATS*

These kittens and cats have been found abandoned behind local restaurants and motels. Some are tiny baby kittens trying to survive on their own. The lovable adult cats make you wonder how they ended up there? Did they get separated from their owner who got off of the interstate? You only know they should not be there. Numerous rescue groups are struggling daily to have them spayed and neutered and trying to find a new home for them. We have long haired, short haired, any color and any age you may be looking for. Due to the large numbers being found, there are only a few lucky ones that have a temporary foster home to live in while waiting to be adopted, but there are many having to wait in crates for a new home and the truly sad cases are those who are having to wait out in the elements.

Winter is approaching very soon along with Thanksgiving and Christmas. If you have room in your heart and your home for one of these innocent victims, please call:

**RICHMOND HERO: 804-788-HERO**

All kittens & cats have already been spayed or neutered and received a rabies shot providing they are old enough.
